

Value to Site Directors

Trusted by thousands of research sites globally, StudyTeam™ is a recruitment and enrollment solution that's easy to use and even easier to love. Its incredibly intuitive interface allows your team to find, pre-screen, schedule, and enroll patients across all your trials with a few clicks – all while securely and automatically communicating critical recruitment and enrollment data to your sponsors in real time.

That means no more unnecessary work, no more double data entry, and no more manual logs - so your team can get back to the work of caring for patients.

It's a recruitment and enrollment solution designed to help the people who help people.

How StudyTeam™ helps Site Directors

Power Remote Trials & Teams

Keep your team connected while working from home, and keep patients on track in remote trials.

Review & Set Tasks For Your Team

Have visibility into your team's progress with the ability to review and assign tasks to your team.

Inform Sponsors on Site Feasibility

Run database reports of patients that meet I/E criteria and get your sites added to more upcoming trials.

Monitor Site Recruitment Anywhere

Manage recruitment seamlessly across all trials, sponsors, and CROs in a secure cloud-based solution.

Get Insights Across All Your Sites

Empower your team to enroll more patients and see how patients move through studies across multiple sites.

Create Standard Team Procedures

Staff works collaboratively in one system, allowing you to create uniform processes for your team.

What StudyTeam™ Brings to Your Team

A unified patient recruitment and enrollment solution for your studies

Upgrade to a system designed to help your staff enroll at your studies. Make sharing progress with sponsors and CROs nearly effortless.

A rich and filterable database of research patients

Add patients one-by-one or import them in bulk from your EMR. Your team can filter patients by attributes to identify study candidates.

A recruitment pipeline manager and I/E criteria checklist

See your trials' recruitment pipeline in one place. Your team can pre-screen patients in the system and create a shortlist of key I/E criteria.

What do Site Directors say about StudyTeam™?

"At first we were hesitant to consider another system. After a brief demo we immediately implemented StudyTeam™ across our entire company (five independent research sites). Now we are confident no potential patient falls through the cracks."

Rebecca Goldfaden, PharmD, CCRP

Vice President of Clinical Operations
East Coast Institute for Research

"I love StudyTeam™ so much. It saves me and my team incredible amounts of time and effort."

"I've been a coordinator for 15 years. This is the best pre-screening system I've ever seen."

"I tell every sponsor about StudyTeam™. They should all be using it."

"We absolutely depend on StudyTeam™."

StudyTeam sites enroll

16% more patients

per site per month compared to sites not using StudyTeam
