

StudyTeam for Sites™ Visit Management

How Visit Management Streamlines Your Trial Activities

Manage all your appointments and visits in one place with StudyTeam for Sites Visit Management! If you have a visit schedule, you can calculate your visit windows and track and schedule your protocol visits from the same place.

With Visit Management, you can:

- View, create, edit, and delete your patient visits and appointments, as well as unscheduled visits
- Assign outcomes to your appointments

If you have a visit schedule, you can also:

- Calculate and view visit windows
- View and select protocol versions and schedule protocol visits
- Assign outcomes and add assignees to your patient's visit schedule
- Export visit details
- Associate a non-protocol visit with a protocol version

Keeping track of your patient visits is now easier than ever!
