

Taking the Work Out of Workflow

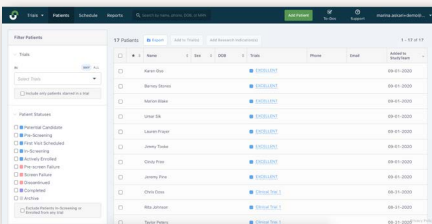

Trusted by thousands of research sites globally, StudyTeam™ by Reify Health is a recruitment and enrollment solution that's easy to use and even easier to love. Its incredibly intuitive interface allows you to find, pre-screen, schedule, and enroll patients across all your trials with a few clicks – all while securely and automatically communicating critical recruitment and enrollment data to your sponsors in real time.

That means no more unnecessary work, no more double data entry, and no more logs - so you can get back to the work of caring for patients.

It's a recruitment and enrollment solution designed to help the people who help people.

What is StudyTeam™?

A unified patient recruitment and enrollment solution for your studies

Upgrade to a system designed to help you enroll all your studies. Make sharing progress with sponsors and CROs nearly effortless.

A rich and filterable database of research patients

Get a patient database designed for your workflows. Add patients individually or bulk import from your EMR. Filter patients by a number of attributes to identify study candidates.

A recruitment pipeline manager and I/E criteria checklist

Stay organized and see your trials' recruitment pipeline in one place. Pre-screen patients in the system and create an abridged list of key I/E criteria to accelerate workflows.

Benefits for Sites

Unify Recruitment for All Your Studies

Manage recruitment seamlessly across all trials, sponsors, and CROs

Hit Your Enrollment Goals Faster

Empower your research team to get more patients in the door and into your studies

Reduce Tedious Work

Cut down sponsor status calls, emails, and manual log submissions

What do sites think of StudyTeam™?

“At first we were hesitant to consider another system. After a brief demo we immediately implemented StudyTeam™ across our entire company (five independent research sites). Now we are confident no potential patient falls through the cracks.”

Rebecca Goldfaden, PharmD, CCRP
Vice President of Clinical Operations
East Coast Institute for Research

“I love StudyTeam™ so much. It saves me and my team incredible amounts of time and effort.”

“I’ve been a coordinator for 15 years. This is the best pre-screening system I’ve ever seen.”

“I tell every sponsor about StudyTeam™. They should all be using it.”

“We absolutely depend on StudyTeam™.”

90% of sites
on over 100 clinical trials have chosen to use StudyTeam™
to track and manage enrollment over other methods.
